## SMALL VOTE, TOWN ELECTIONS

A cold day Monday resulted in a small vote on the Council and School Board elections. 200 on the Council nominees, and 225 on School Board elections, were all that marked a ballot, out of a possible 450 Council voters, and over 700 entitled to a vote on the School Board. Geo Fairbanks as Returning Officer, assisted by D. M. Powelson, T. T. Mendenhall and C. E. Fawcett, took charge of the voting. Geo. E. Court, D. A. Bennett and I. B. Roberts, all seeking re-election, were the successful Council candidates, with 125, 103 and 92 votes respectively. J. LeRoy Anderson, L. Carter, Ross Larson and Lloyd McPhee were defeated in the Council elections, although only two votes separated Roy Anderson and I. B. Roberts.

On the School Board, H. Myron Holmes and Paul Dahl, seeking re-election, and J. O. A. Stevenson were elected with 203, 196, and 162 respectively. Mr. Holmes polled the heaviest vote of the day. Junius L. Anderson was the defeated candidate in this division of the election.

As usual, a number of citizens were denied a vote, but in every instance, so far as can be learned, they had failed to register, or failed in some other way to comply with the law, and the officials in charge had no alternative but to deny them a vote. People should think about these things in the season thereof, and avoid such mistakes in the future.

It won't be long now for "Mutiny on the Bounty" and "Captain Blood."

### TOWN COUNCIL MEETING

The Town Council held its regular meeting Thursday night last, and spent nearly 4 hours on Town matters. The minutes of the last meeting were read and accepted.

Correspondence regarding some relief cases was read, and this opened up a long discussion on these problems in the town, the burden being quite heavy at this time of the year, and the Council feeling that every economy should be exercised in these matters.

A delegation was appointed to go to Edmonton on Feb. 22 to meet with the Board of Public Utilities and representatives of the Calgary Power Co., who have taken over the local plant, to discuss light and power rates. The Mayor and Secretary, and possibly Councillor M. T. King will make up the personnel of the delegation.

The payroll was read and passed, the reports of the Constable and Engineer were read and all were passed.

The Elders Quorum of the First Ward had charge of the Sacrament meeting in the evening and speakers were Elders L. C. Woolley, T. T. Mendenhall and C. E. Alfred. A very enjoyable meeting is reported.

### SUSPICIOUS

Gentleman rider at village store: "I want some shorts for my horse."

Country girl: "Oh you do, do you? Next thing I suppose you'll want a brassiere for your cow."

## CANADIAN UTILITIES SELLS TO CALGARY POWER COMPANY

Confirming street reports that the Calgary Power Limited had purchased Canadian Utilities Limited, the Town received a registered letter from the Calgary Power asking representatives of the Town to meet officials of the Company in Edmonton on the 22nd of the month, with the Board of Public Utilities to discuss terms of a new franchise. No appointments have as yet been made.

It has been felt for some time that commercial lighting, and power rates, particularly have been too high in the Town, and it is likely that the change in ownership will require a new franchise, hence the invitation to discuss the matter before the Utilities Board, he'll make the decision in the matter.

## IMPORTANT DISCUSSION AT. B. OF T. MEETING

About 30 members braved the sub-zero weather Monday night to attend the Board of Trade meeting which was taken charge of by President Lee Brewerton.

Lloyd McPhee was there and asked the meeting for a statement regarding their attitude in keeping our present athletic coach here the year round, so that he could coach and build up summer sports as Basketball was being built up this year. L. D. King read the timetable of Coach Robinson's classes and coaching periods, showing him to be the busiest man in town and the results of his labors are becoming more and more apparent every day. C. E. Tollestrup spoke regarding the School Board and their appreciation of the classes in

physical training which the Coach has been conducting there. A motion appointing L. L. Palmer and D. M. Powelson to interview other interested agencies in the town was passed.

C. O. Asplund, speaker of the evening, commended the meeting in their action on this matter and hoped for their success. He expressed the opinion that if the Board of Trade could co-operate with the districts, that they might succeed in getting the School of Agriculture opened again. He also suggested that farmers get in touch with their elevators, and that in conjunction with them and the Government, they get paid for their planting this spring. He spent some time in speaking regarding the control of the Warble Fly.

## News Notes

Along with sub-zero weather all over the states come reports of coal famine in many parts.

Lloyd McPhee was a business visitor in Lethbridge Tuesday last.

BORN—to Mr. and Mrs. Earl Gurney, Feb. 8th, a nine-pound baby boy. Mother and babe are getting along fairly well.

BORN—to Mr. and Mrs. Jessie Atwood, a nine-pound baby boy. Both are getting along splendidly.

This has been the coldest week yet. Friday morning the kiddies went to school in 35 below zero weather.

R. J. Webster returned home this week after being in Taber for some time visiting and doing some work.

Do not miss the excellent double bill at the Capitol Friday and Saturday. An entirely new cast in "Millions in the Air" and Zane Grey's "Nevada."

BORN—to Mr. and Mrs. Walter Webster on Monday, Feb. 10th, a baby girl. Mother and child are getting along very well in the hospital at Lethbridge.

A big leak in the main by R. W. Tollestrup, old corner has been running for four days, and workmen started Friday morning to repair it.

Storms in Europe have taken a toll of 133 lives during the present week, the Balkans, Turkey and Britain, reporting the most severe storms.

The driver of one of the Sunburst cars froze his big toe on Wednesday night, and he agreed that it was cold weather, all right.

Block on the ranges are making it impossible to get feed, and losses are reported from various districts. Everyone is hoping the weather would moderate and a chinook uncover suitable fields and pasture lands.

Mrs. Lloyd McPhee is in the hospital following a serious operation the first of the week. She is improving as well as can be expected.

Raymond 2nd Ward M. McPhee defeated Stirling again Thursday night in the 2nd straight win of the Stake playoffs, and next Thursday they meet the Cardston Second Ward in the first of the Inter-Stake playoffs.

An enthusiast in Edmonton made out his own dividend cheque last week, over the \$75000 of Premier Aberhart, and used it in an Edmonton store. He received his change and was gone before the forger was discovered, and all the description the police received was a "middle-aged" man described very vaguely.

You have heard him on the air—NOW see and hear him on the screen "the most famous personality on the Air," the only Major Bowes, at the Capitol next Tues. & Wed.

Cardston reported a new Chinese Saturday afternoon, & again Monday afternoon. However, both beginnings were up again.

Solon E. Low, M.L.A., was home from Edmonton on business over the week-end.

A. E. Hancock who is attending the Garbutt Business College in Lethbridge, spent the week-end with his family.

A great number of potential chinooks have failed to materialize during this elongated week spell.

Thursday and Friday of last week, the Consolidated School at Warner closed, as it was too severe for the country pupils to make the trip.

Cold weather over the week-end was the menu. There was, however, one redeeming feature about it, there was no wind, so it was not so disagreeable.

The Bee-Hive gym class under Coach Robinson on Saturdays at 4 p.m. is increasing in popularity. Parents! Don't let your girls miss this opportunity.

Local trucks are finding difficulty in getting loaded with coal at the Lethbridge mines these days because of the great rush for coal.

Considerable consternation and disappointment arose Monday by people being unable to vote, because of not having registered.

Mr. Hill, manager of Canadian Utilities, Calgary, was in town Wednesday. The power deal is really an exchange by Canadian Utilities for a franchise at St. Paul, it being to the advantage of both Calgary Power and the Utilities Limited to centralize their holdings.

Fred Romeril reported that his recording thermometer was down to 40 below zero Thursday night. We don't doubt it at all.

Schuldt Fever is still in the town, and homes of J. LeRoy Anderson and Andy Sorensen were quarantined Monday from the outbreak.

R. W. Tollestrup was a Lethbridge visitor Tuesday on Canadian Utilities business.

Mr. and Mrs. Glen Gurney of Magrath have spent some time recently visiting with Mrs. Gurney's mother, Mrs. M. W. Boyson.

R. D. Johnson, weather sage of Lethbridge, says this will be the last long cold spell of the winter, and that the next is entering a circle of wet weather. He didn't say how long the present spell will last, and it begins to look as though it might be the one and only of the winter.

Something different in the way of stage entertainment. Capitol, next Tuesday and Wednesday—10 big acts of Screen Vaudeville which includes enjoyment for everyone. Two of these attractions are "Major Bowes and his Amateurs" and "Camera Thrills," and 8 more acts to please you. Make a date and only Major Bowes, at the Capitol next Tues. & Wed.

The skies cleared Tuesday afternoon for a while and the weather warmed up quite a few degrees.

RENEW YOUR RECORDER?

### BASKETBALL CHATTER

While waiting for definite agreement on the Senior Schedule of the Basketball situation, a few words about the progress of the various teams, the gym classes, etc., may be interesting to fans and readers.

Possibly the busiest man in Raymond is coach Burle A. Robinson. Six days each week from two until midnight almost, he is at the Oper. House with some class of Basketball Team in training. He is admired by the older groups, and worshipped by the younger ones, and onlookers & observers alike, agree that his discipline with the boys is very good, and the effect of his example as well as in his working out with the boys is worth more than any amount of money.

During the week there have been some slight misunderstandings, and one or two have been somewhat offended by some of the decisions, but at the present time perfect peace and harmony reigns, and every player in all of the basketball teams are working 100 per cent, and a splendid feeling prevails at all the practices and workouts.

Any who doubt the effect of the work of our coach on players in the town should have attended last week when the Jacks gave the Harlemites such a run for their money in Wednesday night's game. Of course the visitors were more or less weary from their trip in the cold weather, that day from Calgary, but even at that they had the advantage of thousands of games and strange plays to the Jacks to assist them, but the Jacks went after them every minute of the game, and according to some, only the fact that two of the Jacks became winded and had to leave the floor saved the Harlemites from a trimming.

Then, too, the same night the Idlers stepped out and stopped the bid down on Magrath in no uncertain manner, showing a decided advantage over the visitors and great improvement in their play and team work during the present season. It is quite probable that the Idlers will again bring the Intermediate crown to Raymond, where it has rested for so many seasons in the past.

The Senior situation is still unsettled. Whether there will be home and home games or divisional playoffs, has not been decided, but this much is sure that when the playoffs arrive, the Jacks will give a very good account of themselves, and with the other teams, will make Raymond feel good about the effort put forth to secure a Coach for our boys and girls.

## CARDSTON WALLOPS THE IDLERS

In a game that carried plenty of speed, action and excitement, the Maple Leafs of Cardston trimmed the local Idlers by a score of 38-31 in a game where the favorable balance went first to one side and then to the other. The teams were quite evenly matched, the locals showing the best passing and floor work, but being off on their shooting, while Cardston had their rabbit's foot with them and were scoring from all

### THANK YOU!

I desire to express my thanks and appreciation to those who supported me with their vote on Monday, resulting in my election. As in the past, I will give my best effort and attention to the affairs of the town and the needs of the people.

D. A. BENNETT.

## JACKS TROUNCE SUNBURST

IDLERS LOSE TO CARDSTON—TEMPLE CITY NOW LEADS INTERMEDIATE LEAGUE

Before a small gallery of fans on Wednesday night the Union Jacks with D. Nilsson, Bill Fairbanks, G. Snow, and Ken and Ab. Haguo making up the team put on a dazzling display of Basketball to take revenge on the Sunburst Oilers for a former defeat, by a score of 41-35. Both teams were minus the services of some of their leading players, which made the battle quite even, but too much cannot be said of the five locals who seldom play a full game to gether, and who on Wednesday night were clicking like clock work to lead the Oilers all the way. Bill Fairbanks, who seldom has the chance, to stay in for a game, electrified the fans with his front end work with Donny and "Dob," and with Ken and Ab on the guard line, the visitors found the going plenty tough.

The Sunburst crew drew the first blood, but the locals soon found the hoop and the end of the first half the score read 19-20 for Raymond, with a final count of 41-35. Fouls were frequent, but the teams agreed not to take any men off and the game went on.

## INTERESTING GAMES COMING, OPERA HOUSE SATURDAY NIGHT

On the Operar House floor Saturday night, fans will have the chance to see the Calgary Beaverettes, ladies team of Calgary in action here against the local ladies team, and the sensation of the evening will be the Japanese boys team, being the only Japanese basketball team in Western Canada, so far as we know.

Present plans will see the local Ladies team against the Beaverettes for half of the game, and the Japanese hoop artists the other half. Right here let us say that "Mac" wants 500 fans at least, present at this game. Cold weather has rather paralyzed basketball attendance, and he wants everyone to forget the weather Saturday night and fill the bleachers for this game.

"Your husband looks like a brilliant man—I suppose he knows everything?"

"Don't fool yourself. He doesn't even suspect anything."

angles, while watching the locals, shots go wild. Fouls were frequent, and both teams lost a couple of players. This now puts Cardston in the lead of the Intermediate League, and is going to mean nearly a clear slate of triumphs for the locals, and at least one loss for the Temple City if our Idlers get into the finals. Let's watch 'em go.

### WHO IS TO BLAME?

Many people were disappointed and out of sorts Monday when they arrived at the Town Hall to cast their ballot, and were refused a ballot. This was the case in particular with respect to the election for Town Council members. On the School Board voting the case was not quite so bad, as any person who pays Poll Tax is entitled to a vote, and this includes quite a number in this town.

Let us ask at the outset, who is to blame that voting day arrived and you as a citizen were denied a vote? The provincial law states that tenants, relatives, even wives or husbands of tax payers, must register each

and every year in order to have a vote in the elections of Councilmen. This is the law and those in charge of the voting must abide by this law, regardless of their own likes and dislikes. We know that during the months of September and October, last year the Secretary kept a scribbler and pencil in the entrance hall of the Town Hall, and had a notice posted there, that those desiring a vote, must register in compliance with the Provincial law.

Further, on Sept. 6, 1935, the Recorder carried the following notice over the signature of the Secretary-Treasurer:

"Notice to all relatives of Persons on the Assessment Roll and to Tenants. Notice is here by given that during the months of September and October applications may be made under the provisions of Section 188 of the Town and Village Act for inclusion in the Voters List of the Town of Raymond by the following persons:

The wife, husband, father and mother and every son and daughter of any person whose name appears on the assessment roll, who are entitled to be placed upon the said list. O. H. Snow, Sec.-Treas.

Now, we ask, did the town officials do their share in making public this information? How many were there on the assessment roll, or water users list, who sometime during these two months were not in the Town Hall, and if their relatives names were not on the list, who was to blame?

We have not mentioned this to antagonize anyone. We merely wanted to point out that the law had to be complied with, and that every citizen of Raymond had an equal opportunity.

### THERE ARE "WHITMANS" AND "EMERSONS" IN RAYMOND

Walt Whitman said: "I simmered and simmered me to the boiling point." until Emerson finally brought me where of course speaking of the development of his writing genius.

There are probably many people in Raymond who could say in regard to their home town loyalty "I simmered and simmered until So, and So brought me to the boiling point."

People sometimes can't quite see where and how their little acts of loyalty have much effect on their community as a whole.

Little acts of loyalty to one's community are like little coins added daily to a bank account. In themselves they aren't much but added together they make a strong defense against some possible time of great need.

We know a community whose people for the most part consistently support its institutions and business places. Local loyalty has become a mental habit with them.

People of a nearby community tried to interest them in a proposition, which would benefit the nearby community more than the local one. The proposition was carefully eighed in good old Canadian town meeting fashion and turned down with good feeling on both sides.

But the "nearby's" were persistent. To make sure they had given the matter full consideration the locals called another meeting. This time the refusal was practically unanimous although the good feeling was not so strong.

But the nearby's were determined to impose their wills on the Locals and canvassed the

homes one by one with very expert salesmen. But though the men weren't at home in most instances to defend their financial interests, the women's loyalty to their town and what was best for their children enabled them to be firm and the insistent Nearby's were duly repulsed and the Local situation was saved.

There is much more to the story but the foregoing suffices to show that daily acts of loyalty stored up in the character create a great reserve on which a community like Raymond can rely in some hour of great need.

Or, to return to our original figure of speech, some towns do not realize their strength until some critical situation brings simmering loyalty to the boil.

### NEWS NOTES

With Quarterly Conference in Magrath last Sunday a large number of local people were there attending meetings.

Due to the severe weather this week's paper has been put out under difficulties. We hope our readers will forgive things which we cannot overcome.

When you listen to the varied radio programs you hear, what is your mental reaction to their message? Why do special brands appeal to you, only that you hear or see them advertised repeatedly? Isn't this lesson of worth to you as a business man with something to sell.

### MUNICIPAL COUNCIL MEETING HELD TUESDAY

The monthly meeting of the Municipal Council postponed from Tuesday, Feb. 4th, was held in the Town Hall Tuesday afternoon, of this week, with all Councilmen in attendance. Most of the time of the meeting was devoted to a survey of last year's work, which had been up to the mark. Accomplished, and with the new machine at a very nominal figure, which made the officials feel well satisfied with their purchase.

It was decided to hold the Annual Meeting, Saturday, Feb. 22 in the Town Hall with the Financial Statement to be presented, and three Councilmen elected. Mayor Wm. G. Meeks was named Returning Officer for the election, and Councillors whose terms are expiring are

Art Minor, representing Magrath, Alma Brandley, Stirling and Fred W. Romeril, Raymond.

These matters and a relief case or two occupied the time of the meeting.

### BEING OURSELVES

What fools are we to want to... be like lots of other folks we see, When from the start we've each a part Which finds its nature in our heart.

For only when we play ours well No more on other rolls to dwell, May "I" be "I" and "you" be "you", And "we" unto our "selves" be true.

—Charles J. Starburg.

## EXPERIMENTAL STATION LETHBRIDGE

## WEEKLY LETTER

Numerous enquiries have been received at this Station regarding the use of the new improved Ceresan for controlling smut, and though seeding time is still some months away, readers of this weekly letter will be greatly interested in the results obtained with this new dust treatment in tests recently conducted by the Division of Botany of the Experimental Farms Branch. Following is a summary of information supplied by Dr. W. F. Hann of the Laboratory at Winnipeg.

New Improved Ceresan, or Ceresan as it is commonly called, is applied to the seed in dust form and its active agent is Ethyl Mercury Phosphate of which it contains 5 per cent. In the tests conducted it has given excellent control of bunt of wheat, covered smut of barley and smuts of oats. The dust is applied to wheat, oats and barley at the rate of one-half ounce per bushel. More than 1/2 ounce of dust per bushel should not be used.

Seed treated with New Improved Ceresan gives a somewhat higher percentage of germination than untreated seed. In order to insure the best smut control grain treated with Ceresan should be allowed to stand

at least 24 hours before being sown. Dr. Hanna states, however, that experiments conducted at Winnipeg laboratories have shown that the time between treating and seeding should not be too great or the germination of the seed may be adversely affected. This is most likely to happen when the moisture content of the seed is high. In practice, therefore, it is suggested that seed be treated not more than about one week before it is to be sown.

Last spring at this Station small samples of wheat were dusted with Ceresan the last week in January, February, March, and April, and the last week in May these were sent to the Dominion Seed Branch at Calgary for a germination test. The report showed that the germination was lowered as the length of time between treating and testing was increased, that of the sample treated on April 30th being 80 per cent and that of the one treated January 30th being 61 per cent.

New Improved Ceresan is about the only dust on the market in Canada which can be used for treating oats and barley as well as wheat. Moreover, since it is applied at the rate of only 1/2 an ounce per bushel, it should not give rise to clogging of drills, a fault that has been attributed in the past to copper carbonate. As compared with Formalin, New Ceresan slightly improves seed germinability, whereas Formalin some times impairs germination. It is also usually considered that dust treatments can be more easily and conveniently applied than liquid treatments. The cost of Ceresan, purchased in five pound lots, works out at

## SENTENCE STIMULANTS

The man who thwarts my plans may not be my enemy. He may be as zealous for truth as I and merely be approaching from another direction when we collide.

When you want to reform your neighbor you may think you have religion; when you are forever dissatisfied with your own moral and spiritual growth you may be quite reasonable. Sure religion is beginning to get YOU.

The mind may render a decision if you wait long enough but the aroused heart will get action which may nullify or make unnecessary the logical decision and nine times out of ten the heart is right.

Sigrid Undset says, "He was not made for climbing the tree of knowledge." Some men have too much practical common sense to bother with some frilled-out tree of knowledge. They call such climbing "monkey business."

Behind the rough exterior of every man there is the struggle at times for beauty. Yes, even beneath the crudities of weakness and sin there is a soul that has moments when it truly longs for strength and righteousness.

## RENEW YOUR RECORDER?

about 2 1/2 cents per bushel.

Since Ceresan contains mercury, grain treated with it should not be fed to livestock and when treating grain with this dust it is advisable to wear some kind of mask or cloth over the face.

Dr. Hanna reports that experiments have been conducted with a number of commercial dusters but that none of these have been found very satisfactory for applying Ceresan. Most of these dusters were designed for the use of copper carbonate which is applied at the rate of about 2 ounces per bushel. Since Ceresan is an exceedingly fine dust, flows readily and is applied at the rate of only 1/2 an ounce per bushel, it is very difficult to get the ordinary commercial machines to deliver the small amount required. Progress is being made in developing commercial dusters suitable for the New Improved Ceresan but until these have been developed and thoroughly tested, the use of the home-made machine is suggested. Plans and instructions for making a duster may be obtained by writing to this Station.

## A Whale of a Story of a Whale

An advertising expert talking about the psychology of propaganda said:

"A boy boarded an excursion steamer where every seat was occupied. 'Seen the whale tied to the pier on the other side?' he asked his fellow-passengers. His whale story was laughed at, but he kept repeating it.

Gradually, one by one, the passengers got up and crossed over. The boy got a seat. Soon he could have had one hundred seats, for everybody had hurried over so as not to miss the whale.

He sat alone for some time. Finally he hoped up and rushed to the other side of the boat, muttering, 'Maybe there is a whale after all.'

 of Basketball in the Opera  
 House Tuesday night last, the  
 Raymond 2nd Ward M. Men  
 defeated the Stirling team for  
 the right to meet the Cardston  
 players in the interstake cham-  
 pionship for "M" Men Basket-  
 ball, and the privilege of rep-  
 resenting Canada in the Church  
 finals at Salt Lake City.  
 Tuesday's game showed a deci-

 ded improvement in the smooth-  
 ness and effectiveness of the  
 passing and shooting of the  
 local team, reflecting the re-  
 sults of coaching by Coach  
 Robinson. Both teams turned  
 on the steam, and were going  
 at top speed all evening. Sharp  
 shooting by local players best-  
 ed the visitors, and the final  
 whistle showed a score of 59-29  
 with the half time score 13-24  
 for Raymond.

**News Notes**

 Storms and blizzards across  
 some of the States were so  
 severe last week that the School  
 children were marooned in the  
 school houses, unable to even  
 get home, roads were blocked  
 and fliers were dropping food to  
 them from the skies to prevent  
 any suffering.

 A precedent was set in the  
 Provincial House last week, as  
 the Hon. Speaker, N. E. Tanter  
 of Cardston, called a fifteen min-  
 ute recess during the afternoon  
 feeling that three hours was  
 too long a sitting. Probably a  
 little of the school teacher work-  
 ing out.

 See and hear Major Bowes at  
 the Capitol, Tuesday and Wed-  
 nesday of next week.

 "Auntie, will you please wash  
 my face?" "Why, Johnnie, I  
 thought you could do that your-  
 self."

 "Well, I can, but I'd have to  
 get my hands wet, and they  
 don't need it."

 John H. Blackmore, M. P.,  
 made his maiden speech in Par-  
 liament Friday, paying tribute  
 to the memory of King George  
 V, and expressing his faith and  
 allegiance to the present mon-  
 arch and the government.

 "What shall I do?" wailed the  
 sweet young thing. "I'm engag-  
 ed to a man who simply cannot  
 bear children."

 "Well," remarked the kindly  
 old lady, "you mustn't expect  
 too much of a husband."

 C. G. Serkau, representative  
 of the Russian Government,  
 is again conferring with the  
 Dominion Government in the  
 hope of trading Russian anthra-  
 cite coal or other commodities  
 for 100,000 head of Canadian cat-  
 tle. It is reported the sugges-  
 tion is receiving a more favor-  
 able hearing than it did form-  
 erly.

 Riley met with an accident,  
 but the next day managed to  
 crawl to work. "Why didn't ye  
 stay home for a week or two?"  
 said Finnigan. "Worn't ye car-  
 ryin' an accident policy?"  
 "I wor not—bag cess to me care-  
 lessness!" said Riley. "I had  
 left it home in my bureau draw-  
 er."

 And now people are asking  
 when it is going to warm up.  
 We have had about six weeks of  
 this cold weather, now, with  
 only a couple of days break in  
 it. This is the longest cold  
 spell for a number of years.

**MARRIED**  
 A quiet wedding was solen-  
 nized at the home of Arthur  
 Dahl last Saturday evening,  
 when he and Mrs. Elizabeth  
 Harker were married. Only  
 members of the family were  
 present, and Bishop J. H. Wal-  
 ker performed the ceremony.  
 These people have the best of  
 wishes of their many friends  
 for their happiness.

**ODE ACCIDENTS**  
 Awakened from a nap, D. W.  
 Danielson of Colorado found his  
 throat so sore that it was diffi-  
 cult for him to swallow. Hung-  
 er forced him to attempt eat-  
 ing but his false teeth were  
 missing. An X-Ray revealed  
 them in his throat, the cause of  
 his disability.—Pathfinder

 It was one of mother's busi-  
 est days. Her small son came  
 in with his trousers torn. His  
 mother helped him to change to  
 another pair, but in an hour or  
 so he was back, his trousers  
 torn again.

 "You go right upstairs, re-  
 move those trousers and mend  
 them yourself," his mother or-  
 dered.  
 Some time later, she thought  
 of him and went upstairs to see  
 how he was getting on. The  
 torn trousers were lying on a  
 chair, but there was no sign of  
 Johnnie. Returning downstairs  
 she noticed the cellar door was  
 open, so she called down loudly  
 and sternly: "Are you running  
 around down there without your  
 trousers on?"

 A deep voice answered: "No,  
 madam, I'm reading the gas  
 meter."—Efficiency Magazine.

 The extremely cold weather  
 resulted in a near shortage of  
 coal, and truck men reported  
 that mines were rushed to cap-  
 acity to load the vehicles that  
 pulled in each day to load up.

 P. D. Bennett, manager of  
 the local Safeway Store, was in  
 Calgary over the week-end,  
 where managers of a number  
 of stores were guests of the  
 Executive at a Convention and  
 vacation trip, which included  
 visits to several of the manu-  
 facturing concerns in the city.  
 He returned home Tuesday.  
 Cold and stubborn cars have  
 been the order of the day so  
 much recently that both garages  
 are filled to the doors with  
 storage cars.

 Saturday was a little warmer  
 and quite a number were trav-  
 elling, making trips that had  
 been postponed from the earlier  
 part of the week because of the  
 severe cold.

MAGAZINE'S  
CANADIAN  
HALL OF FAME  
No. 22**

 Red hair and luck is the magi-  
 cal combination to which Wil-  
 liam "Red" Hill attributes his  
 marvelous success at almost  
 daily defying the treacherous  
 waters of Niagara. He is the  
 ranking wonder of the Seven  
 Wonders of Canada and has  
 been saving lives and risking  
 his own since he was twelve.

 The most col-  
 orful figure of  
 the world-fam-  
 ous rendezvous  
 of honeymoon-  
 ers and suicides, he is called  
 upon repeatedly to drag bodies  
 from their watery grave below  
 the big falls.

 Knows all the shifting, swirl-  
 ing pools and how to success-  
 fully elude them and his uncan-  
 ny river sense directs him un-  
 failingly to the mournfully bob-  
 bing body. Has lost track of the  
 number recovered but up to No-  
 vember 2, 1931 it was 124.  
 Has an acute aversion to other  
 daredevils but maintains his own  
 feats are not recklessness be-  
 cause of his luck and red hair.

 In 1901 he went through the  
 whirlpool in a barrel and need-  
 ed his luck to survive when the  
 lid came off. Swam the rapids  
 in 1925.  
 Red is nearly fifty and has  
 six children. Risks his life every  
 winter to rescue wild swans  
 trapped on the ice bridge.

 Has trained his son, William,  
 Jr., to take his place as the  
 Hero of the Niagara.

**WANT ADS.**
**FOR SALE**—Sewing Machine  
 in good shape. \$15.00. Apply at  
 Recorder Office.

**FOR SALE CHEAP**—Bennett  
 wagon, will haul three ton. Ap-  
 ply at the Recorder Office.

**FOR SALE OR TRADE FOR  
FAT CATTLE**—Fresh Milch  
 cows, 6 or 7, all good strain.  
 See W. W. Wells, Phone RS11,  
 Raymond.

 irrigated or 2 or 3 quarters of  
 dry land. Have complete line of  
 horses and machinery. Long  
 contract wanted. — See John  
 Gellany, Raymond Box 28

**ROTARY MEETING**  
**NEXT MONDAY**

 The regular Rotary meeting  
 will be held next Monday even-  
 ing in the United Church at  
 6:30 p.m. as usual. Important  
 matters will be up for discus-  
 sion and all members are asked  
 to be present.

 The Committee is endeavoring  
 to get Reg. Rose from Leth-  
 bridge as speaker, and an inter-  
 esting and profitable evening is  
 expected.

 If w many letters should you  
 write that you keep putting off  
 because you hate to write. Well,  
 a typewriter would solve your  
 problem and you can get one  
 very cheaply. Come in and talk  
 it over. This will cost you no-  
 thing.

**Oldest European Discovery  
Against Stomach Troubles  
and Rheumatism Acclaimed  
Best by Latest Tests**

 Since 1799 thousands of people have regained their normal  
 health after years of suffering from stomach troubles of all  
 types, such as constipation, indigestion, gas and sour stom-  
 ach which are the basic factors of such maladies as high  
 blood pressure, rheumatism, periodic headaches, pimples on  
 face and body, pains in the back, liver, kidney and bladder  
 disorder, exhaustion, loss of sleep and appetite. Those suf-  
 ferers have not used any man-made injurious chemicals or  
 drugs of any kind; they have only used a remedy made by  
 Nature. This marvellous product grows on the highest  
 mountain peaks, where it absorbs all the healing elements  
 and vitamins from the sun to rid HUMANITY in distress.  
 It is composed of 19 kinds of natural leaves, seeds, berries  
 and flowers scientifically and proportionately mixed and is  
 known as LION CROSS HERB TEA.

 LION CROSS HERB TEA tastes delicious, acts wonderfully  
 upon your system, and is safe even for children. Prepare  
 it fresh like any ordinary tea and drink a glassful once a  
 day, hot or cold.

 A dollar treatment accomplishes WONDERS; makes  
 you look and feel like new born. If you are not as yet  
 familiar with the beneficial effects of this natural remedy  
 LION CROSS HERB TEA try it once and convince your-  
 self. If not satisfactory money refunded to you. Also in  
 case of form.

 Try it and convince yourself with our money-back guarantee.  
 One week treatment \$1.00 Six weeks treatment \$5.00
